SAM.GOV	Registration in progress
DELIVERY	Remote, nationwide
SERVICE AREA	U.S. & Territories

DIFFERENTIATORS

PM and controls under one roof

Project management, project controls, and operations expertise, not scattered across separate vendors.

Documentation-first methodology

SOPs, manuals, and systems built to hold up under audit and staff turnover.

Right-sized delivery team

Project managers, controls specialists, and subject-matter contributors matched to each engagement.

AI-accelerated, not AI-replaced

AI speeds research, drafting, and reporting. Every deliverable still goes through human review and quality control.

WHO WE SERVE

- Government agencies & contractors
- Growing small businesses
- Construction & infrastructure
- Professional-services firms
- Municipalities & nonprofits
- Organizations in transition

HOW WE ENGAGE

1. Discovery & Assessment

Review current systems and structure against desired outcomes.

2. Controls & Systems Design

Design the controls, SOPs, and reporting the work requires.

3. Implementation

Put systems and processes into practice alongside your team.

4. Ongoing Support

Refine schedules, dashboards, and processes as work evolves.

REPRESENTATIVE EXPERIENCE

- **Project controls:** cost tracking, schedule reporting, and dashboards for federally funded programs (Excel, Procore); about 17 active sites today.
- **Project manager, IRT:** led an Innovative Readiness Training project end to end, Oct 2023 to Jun 2024.
- **Sectors:** healthcare, FEMA-funded recovery, school infrastructure. **Credentials:** Lean Six Sigma Green Belt, Procore certifications; PMP in progress.
